Education

I work well in groups, I have done 12 hours of service also individually and community Els Arenys, I solve any I want to do a cycle half problem of computing and then finishing I want to go to the top.

Professional Experience

My intention, once this cycle is finished, is to study a Higher Degree in Cybersecurity or Administration of Computer Systems in Networks (AsiR), since I would like to learn more about data protection, networks and computer systems When I finish my studies, my goal is to start working in the computer sector.
